

HE & Careers Bulletin

Week 12 Michaelmas Term 2018

tpp@shrewsbury.org.uk | 01743 280510

Dear all,

Here is the final bulletin of term – enjoy!

Deadlines coming up:

UCAS: it is really pleasing to see offers coming through for a large number of you. If you've not received one yet, don't worry – most universities review applications in waves (and some will wait until all are in), so second-guessing them is not worth it.

External Events & Opportunities:

PwC Paid Work Experience: an excellent opportunity to get your foot in the door of one of the UK's largest consultancy companies. Business and Digital paths are open now for Summer 2019. Find out more [here](#).

Economics Degree with the Civil Service: the Government have launched their first ever degree-level economics apprenticeship, with a £20k starting salary and no debt. Find out more [here](#).

Aston Taster Days: find out what courses might be like in Medicine (13th Feb) Business & Economics (6th Feb), Computer Science (27th Feb), Engineering (27th March), Politics (30th Jan), Biochemistry & Neuroscience (13th Feb). Find out more [here](#).

Land & Property Management Taster Day: Harper Adams University are running an experience day for anyone interested on 6th February. Find out more [here](#).

Sport & Exercise Physiology Taster Day: BCU are offering an interactive masterclass for anyone interested in physiology. Find out more [here](#).

Online Taster Days in 3D Visual Effects, Compositing and Animation: Pearson College offer a Taster Day without even leaving home. Find out more [here](#).

These opportunities have not been vetted by anyone at Shrewsbury and have been selected as they may be of interest and have been sent to the Careers team. If you do have any feedback on them, I would be very glad to hear it. Any permission for missing school will need to be sought in the usual way.

Universities & Careers updates:

How much will you earn from your degree? The DfE have released a report outlining how much graduates earn. Read more [here](#). The really useful site www.unistats.co.uk is another way of finding this out.

The US loses international students: though the number continues to rise at Shrewsbury, globally the number of international applicants to US universities is dropping. Read more [here](#).

Remember that the Careers Library is open every day and has a wide range of resources for all potential paths. Individual appointments are readily available by signing up in the Careers Library.

Best wishes,

Mr Percival
